

# State-of-the-Art Patient Treatments and the Impact of the Hemostasis Laboratory

This symposium will focus on the use of state-of-the-art Hemostasis treatments, the role of the Hemostasis Laboratory, and the impact of both on patient care. Hemophilia, Thrombotic Thrombocytopenic Purpura (TTP), and the use of Direct Oral Anticoagulants (DOACs) will be discussed.

## Date and Time\*

January 14, 2025  
16:00–18:00 CET  
January 15, 2025  
11:00–13:00 CET

## Speakers

### Prof. Paul Coppo

Professor of Hematology; Department of Hematology and Reference Center for Thrombotic Microangiopathies, AP-HP and Sorbonne University, Paris, France.

### Dr. Michelle Sholzberg

Division Head, Division of Hematology/Oncology and Medical Director, Coagulation Laboratory, Department of Laboratory Medicine, St. Michael's Hospital, Toronto, Ontario, Canada.

### Dr. Alberto Tosetto

Head of Hematology at S. Bortolo Hospital, Vicenza, Italy.

## Session Overviews

- **Hemophilia:** Evolution of hemophilia therapies and testing technologies used to aid in the diagnosis and monitoring of hemophilia patients
- **TTP:** Current and new therapies and treatment strategies, laboratory testing, and the impact on patient care
- **DOACs:** The role of this therapeutic category and the role of laboratory testing in ensuring quality patient care

Following the workshop, Werfen representatives will be available online to answer questions.

\*To accommodate time zones around the world, this program is offered at multiple times.
